

In excellent hands at Cranmore

The finishing touches at Cranmore

## Excellence In Dentistry

### New Building

Cranmore Dental, which relocated from the Lisburn Road to 15 Windsor Avenue recently hosted an official opening following a year-long restoration project.

Spearheaded by Cranmore's Clinical Director Dr. David Nelson, together with his team, including John Allen from WDR & RT Taggart Architects, Hampton Interiors and Adrian Doris Contractor, they carefully set about

transforming the former private residence into a bespoke dental practice.

When carrying out the restoration, the team were mindful of retaining as much of the original character of the building, whilst also keen to introduce some modern touches. As a result the hand made ceiling roses, restored marble fireplace and decadent corning naturally compliment the modern glass partition doors separating

the reception and patient lounge. The design skills and craftsmanship of the team are certainly reflected in the finished detail, creating relaxing and sumptuous surroundings for patients to enjoy.

Dr David Nelson was one of the first dentists in Northern Ireland to obtain a Masters Degree in Dental Implantology.

The dedicated implant team at Cranmore has a wealth of experience in relation to

dental implant treatment and regularly receive referrals from other dentists in relation to all aspects of dental implants.

Reflecting the commitment to continuing education, Cranmore has been approved as a Clinical Training Centre for the University of Central Lancashire Institute of Postgraduate Dental Education Masters Programme in Implant Dentistry, with Dr Nicholson as Academic Lead and Dr Nelson as Lead Clinical Supervisor.

### Dental treatments:

At Cranmore the patient journey combined with delivering excellence in dentistry is the key focus. The highly skilled dental team offer a full range of treatments including:

- Dental implants
- Smile makeovers
