Concierge Class Dentistry at Cranmore

In the first installment of a new column Dr. David Nelson, Clinical Director of Cranmore, introduces his newly renovated practice located at 15 Windsor Avenue in Belfast, which was opened at the beginning of January following a year-long restoration project.

Cranmore Dentist's
and Specialists.

With six surgeries, including a designated hygiene suite, the practice is equipped with state-of-the-art technology, combined with using the highest quality dental materials and award winning dental laboratories to ensure the best results.

I was one of the first dentists in Northern Ireland to obtain a Masters Degree in Dental Implantology and reflecting this commitment to continuing education, Cranmore has been approved as a Clinical Training Centre for the University of Central Lancashire Institute of Postgraduate Dental Education Masters Programme in Implant Dentistry, with myself as Lead Clinical Supervisor.

Next month, I will be focusing on dental implants, addressing your most frequently asked questions.

Together with our professional team including John Allen from WDR & RT Taggart Architects, Hampton Interiors and Adrian Doris Contractor, we carefully set about transforming the former private residence into a bespoke dental practice. We were mindful of retaining as much of the original character of the building whilst also keen to introduce some distinct modern touches.

As a result the hand made ceiling roses, restored marble fireplace and decadent cornicing are naturally complimented by the modern glass partition doors separating the reception and patient lounge. The design skills and craftsmanship of the team are certainly reflected in the finished detail, creating relaxing and sumptuous surroundings for our patients to enjoy.

Our concierge class service includes:

- On-site Parking
- Ground Floor Surgery Facilities
- Plasma Screen TV
- WIFI access
- In-surgery iPod docks
- Complimentary Coffee

At Cranmore the patient journey combined with delivering excellence in dentistry is the key focus. Our highly skilled dental team offers a full range of treatments including:

- Dental Implants
- Smile Makeovers
- Inman Aligner
- Zoom Advanced Power Tooth Whitening
- Specialist Treatment
